INTRODUCTION

EXPLAINING THE TOKEN

Farmer Doge is a reward token unlike any other. The difference with Farmer Doge is that we are a multi-dividend token. This allows us to be able to farm any type of token on the Binance Smart Chain (BSC). If it is not a part of the BSC, it will need to be pegged. For example, if we are farming ADA it would need to be what is called, Binance-Peg Cardano. This is a token that exists on the Binance Smart Chain whose value is indexed on the Cardano coin. We are unique in a way where it is possible to do just that. Instead of the terms 'reflections' or 'redistributions', this is a form of rewards which works similarly. We would be able to farm even new coins that have just launched as well, not just a stable coin.

THE PROBLEM

OTHER REWARDS TOKENS IN THE BSC ARE ONLY FARMING ONE TYPE OF COIN AT A TIME AND ARE STUCK FARMING IT FOR THE LIFE OF THE PROJECT. REWARDS ON MOST OTHER TOKENS ARE NOT AUTOMATIC AND NEED TO BE MANUALLY CLAIMED THROUGH ANOTHER WEB PAGE. YOU WILL ALSO NEED TO CONNECT YOUR WALLET TO THAT WEB PAGE AND PAY FOR THE GAS FEES. MOST ARE ALSO GIVING YOU WHAT IS CALLED REFLECTIONS WHICH IS REDISTRIBUTING A MIRROR IMAGE OF THE TOKEN ITSELF. IN ORDER FOR YOU TO GAIN ACCESS TO THAT VALUE YOU WOULD NEED TO SELL YOUR REFLECTIONS IN ORDER FOR YOU TO TRIM OFF YOUR PROFITS. PROBLEM WITH THIS IS THAT WHEN YOU TRADE YOUR TOKENS TO BNB YOU ARE ALSO HURTING THE CHART BY DOING SO. THIS WILL ALSO PUT IN MINDS OF OTHER INVESTORS THAT SOMEONE IS POSSIBLY DUMPING AND CAUSING FEAR, UNCERTAINTY AND DOUBT (FUD) FOR THE PROJECT.

FARMER DOGE IS ABLE TO FARM OTHER TOKENS AT ANY GIVEN TIME. IT GIVES US THE EDGE OVER OTHER TOKENS BY FAR. WHETHER IT BE DAILY CHANGES, FEW DAYS OR WEEKLY. WE CAN CHANGE THE TOKEN TO WHATEVER WE LIKE, AS LONG AS IT'S WITHIN THE BSC. REWARDS ARE GIVEN OUT AUTOMATICALLY AND ARE EARNED THROUGH BUYS AND SELLS. THIS WILL KEEP YOU FROM SELLING OFF ANYTHING OR WORRYING ABOUT FORGETTING TO DO SO. IT WILL JUST SHOW UP IN YOUR WALLET. ALL YOU HAVE TO DO IS ADD THAT CONTRACT ADDRESS TO YOUR WALLET AND VOILA! THERE IT IS! THE CONTRACT ADDRESS OF NEW TOKENS BEING FARMED WILL BE POSTED IN TG ON THE REGULAR TO ELIMINATE THE TROUBLE OF FINDING IT.

THE SOLUTION

Introduction To Charity And Donations:

We are Farmer Doge, and we are the crypto set out to help feed the world. We want to get hands on and be there at the front lines fighting hunger. We will change the way people view crypto as a whole. To be able to bring communities together and find a way to help one another, rather than fight amongst each other trying to be the best project.

THE PROBLEM

An abundance of fruits and vegetables get thrown out by farmers before even getting to the big box grocery stores or the local farmer's market. The

reason behind this is because the fruits or vegetables do not look appealing or meet certain standards but they are still very edible. A lot of good food goes to waste because of this. Another reason for food getting tossed away is because of the absence of cold storage facilities.

Millions of people around the world are struggling to buy food on a regular basis or they lack the resources to be able to grow their own food.

There are people in this world that are constantly starving. Some of these being every city's homeless persons. It is harder for them to get access to food or even to a nice meal every day.

THE SOLUTION

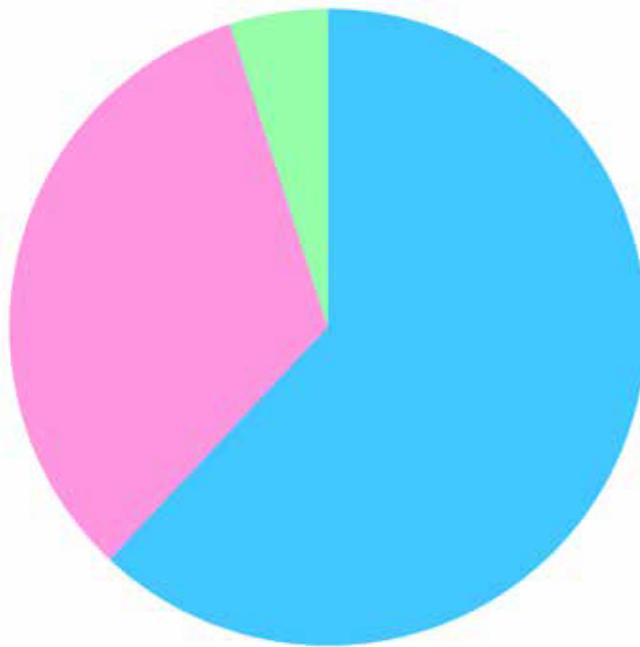

Farmer Doge will go meet with as many farmers as possible. Our goal is to buy as many fruits and vegetables, that are being tossed away, as we can. We will hand sort through it all before bringing it to the shelter or giving it away to local shop owners.

We will be able to provide ingredients to local restaurants or kitchens ,who may be able to help prepare some fresh meals to take down to the shelters. We would also be able to donate fruits and vegetables to food banks that may also need it. Local restaurants are not obligated to help in any way but farmer doge will still drop off care packages to random locations around the city.

FARMER DOGE TEAM

THE QUEST | CEO

Our CEO has been immersed in the crypto space since 2008; investing in early coins and researching the dynamics each project could have as it gained more widespread adoption.

Over the last 2 years, he has lended his knowledge and expertise to scale multiple projects, some of which are house hold names today reaching billions of dollars in market cap.

Understanding the impact a token can ultimately make in changing lives for the better, he took it upon himself to relaunch FarmerDoge, in hopes to not only create a safe investment for holders across the Binance Smart Chain, but to also allow the trading activity to support those less fortunate.

Organic growth through a passionate community is what he believes to be the most important aspect in building a solid foundation for a new project.

CPT SCRUFFBEARD | COO

COO. Cpt is a driven individual with a passion to help those in need. He has worked with some very large projects in the past helping boast a 2 billion market cap within a month on one. Cpt was brought along on FarmerDoge because of his passion for people, and tech savvy abilities. His goals align with wanting to create his own organization in the future, one that tackles a huge problem in the world, homelessness. He wants no one to ever feel alone or feel they have nowhere to go, and this all stems from the fact that he was there at one point in time, homeless and alone. He has put in a ton of hard work and effort to get out of that position and vows to help others out of that position.
